

Double Replacement Reaction

Mar-08-2024 9:29 PM 1/3

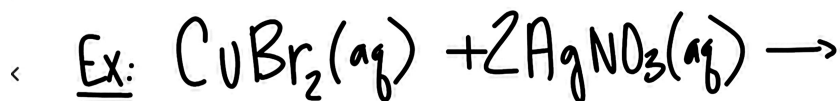

A reaction where two compounds dissolve (aq) and a new ionic compound is formed.

Precipitate

Mar-08-2024 9:29 PM 2/3

A solid (s) formed during a reaction (SR or DR) due to ion interaction.

Precipitates form when the ionic bond is stronger than the polar bond in water.
