Assignment 3C – Lewis Dot Structure Review

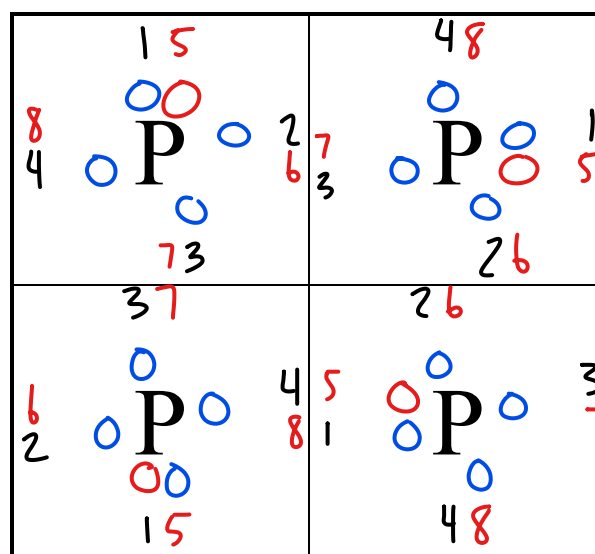

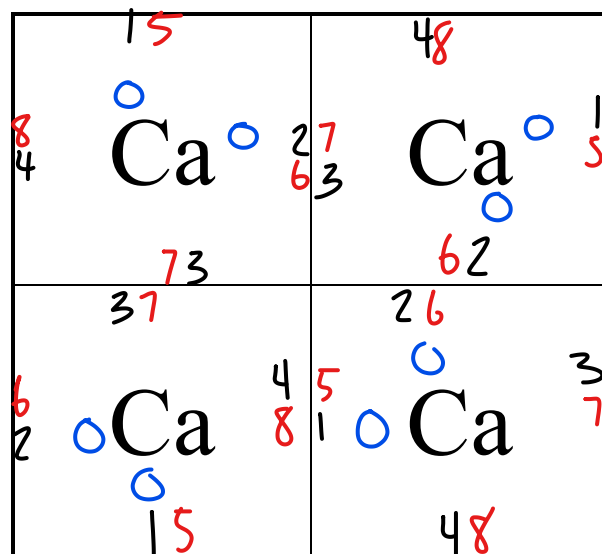

20 Points

Define the following terms from the in class notes

Define <i>bonding</i>	Define <i>Lewis Dot Structure</i>
Define <i>electron pair</i>	Define <i>electron spin</i>

For each atom below, draw the Lewis Dot Structure in all 4 major variations of unpaired e^-

Ca: 2A
2 val e^-
 (2 dots)

P: 5A
5 val e^-
 (5 dots)
